

Harmsco® BKP Portable Filter

FILTRATION ON DEMAND!

HARMSCO BETTERFILTER® PORTABLE UNIT

This convenient, heavy-duty pool servicing device combines the strongest filtration solution in the industry along with your preferred pump and motor. The Harmsco® Betterfilter® Portable unit (BKP) will provide years of dependable service under the most extreme conditions and to your customer's convenience and satisfaction.

The BKP filter clears up challenging water problems quickly without wasting water, heat and chemicals. The BKP unit can be moved around quickly and easily, which increases your efficiency during your maintenance routes. With Harmsco® Up Flow patented filtration technology on board, you can quickly troubleshoot serious pool filtration problems. Imagine being able to say "No Problem!" to your customers on a daily basis! In addition to pool and spa service companies, every swimming pool & spa construction company should own a Harmsco® Betterfilter® Portable unit!

HARMSCO'S HIGH PERFORMANCE PRESSURE CARTRIDGE PORTABLES ARE THERE WHEN YOU NEED THEM!

- 316 Stainless Steel construction for durability and performance
- SureSafe™ lid closure also eliminates air entrapment
- Single or Cluster cartridge designs available
- Portability speeds up your service routes
- Non-marring gray rubber tires – will not mark decking
- Grease fittings and roller bearing hub on pneumatic wheels
- Easy to use and maneuver around pool and spa decks
