

BKP Portable Filtration

**Cooling Tower Sump Cleaning • Stormwater Cleanup
Fountains • Water Parks • Pools • Spas • Aquatic Facilities**

Product Overview

The BKP Single-Cartridge Portable Filtration unit is the most handy, heavy-duty liquid service device available. This unit utilizes Harmsco® Filtration Technology to provide years of dependable service under the most extreme conditions. Imagine being able to say to a customer “No Problem!” on a daily basis! Every pool service company, pool builder, community maintenance service, or aquatic facility should have a BKP Portable.

Features:

- ✓ The BKP Portable Filter clears up bad water problems quickly without wasting water, heat, and chemicals.
- ✓ All units can be moved easily around a pool, water feature, or to various sites.
- ✓ SureSafe® filter lid closure eliminates air entrapment.
- ✓ Harmsco® Single Cartridge Filter
- ✓ Various cartridge types to suit your filtration specifications.
- ✓ All 304L Stainless Steel housing and cart construction.
- ✓ Wheels with ball bearings and non-marring rubber tires.
- ✓ Protective Stainless Steel brackets to help protect pump strainer and motor end.
- ✓ Three sizes available to meet your capacity needs
- ✓ 1 year simple warranty on parts and workmanship.

Fully Plumbed Unit
